

Particle Counters & Sizers

Remote Particle Counter

Particle represent a major risk factor for human health. ECM delivers instrumentation of his principal partners, covering a broad range of applications.

The instrumentation monitors particles ranging from 1nm up to tens of micrometer size categories for applications:

- Atmospheric research
- Ambient air monitoring systems
- Clean room solutions
- Nanotechnologies
- Pharmaceutic research
- Bio exhausts
- Engine testing
- Toxicology
- Microbial detection
